## Downward denim

**Second Denim** has combined our love of yoga pants with our desire for hip fashion-forward denim and come up with Yoga Jeans. Made of top-quality denim containing 97 per cent brushed cotton and three per cent elastane, Second Yoga Jeans hug the curves of your body in any position. Produced in Montreal, Second uses denim with 92 per cent shape memory (industry standard is only 64 per cent) and, thanks to their revolutionary treatment, the cuts and styles actually shape, hold and lengthen the body, helping to mask those little imperfections. Available at **hum clothing** in flared, straight or legging style, they are perfect for tucking into this season's slouchy boot (3623 Main St.).

## Blo and go

Editor-in-chief of *Vogue* **Anna Wintour** famously has received 6:45 a.m. salon blowouts for her power-bob every morning for the last decade. What is it about having great hair that just makes a gal's day go so much better? Well, now you too can have a guaranteed good hair day at Yaletown's **Blo**. Find no scissors here, instead their thirty-dollar, 30-minute menu will give you a choice of eight difference styles from the razor straight Executive Sweet to the edgier Sex, Hugs and Rock & Roll. Book an appointment this Valentine's Day for some pre-dinner date pampering and enjoy the luscious white and silver space (with **Philippe Starck** Louis Ghost chairs) while chilling to some groovy beats (1150 Hamilton St., [blomedry.com](http://blomedry.com)).

## Make scents

If your man is not the European-chic romantic you'd like him to be at least you can make him smell like one with **Fresh** Tobacco Flower Eau de Cologne (\$69). Think warm breeze, Mediterranean countryside, laced with sun-kissed vines and ripening olives, topped with orange flower, ivy heart, tobacco flower and black currant. This Valentine's Day get him the gift that gives back to you. Available at **Kiss and Makeup** ([kissandmakeup.ca](http://kissandmakeup.ca)).
